For more information call  
SAEDG at 520-586-2330  
or email  
saedg@qwestoffice.net

## SAEDG southeast arizona economic development group

This FREE 2 hour workshop features Jeff Spies, Director of Training for AEE Solar, one of the largest wholesale distributors of Solar products in North America. His popular workshop has helped thousands of business owners successfully enter the Solar field over the past year.

Jeff's workshop is designed for licensed electrical, HVAC, roofing, and general contractors, and anyone wanting to learn about starting a Solar business in Arizona. His class is also useful for building and electrical inspectors, as well as P & Z staffers.

Find out what every licensed contractor should know about Solar. Discover how the rapidly growing demand for Solar energy can positively impact your business. And learn how to avoid the common pitfalls that newcomers often encounter.

The SAEDG is sponsoring this FREE workshop to help explain the opportunities awaiting SE Arizona business owners and governments who take the time to really **"Know Solar."**

The SAEDG would like to thank our co-sponsors who made this workshop possible: Cochise County, City of Benson, AEE Solar, Cochise College at the Benson Campus, and Solar Park.
